March 14, 2020

To Our Community,

With school closures surrounding the coronavirus, we recognize that there are many children and families in our community that depend upon school lunch and breakfast programs, and depend upon school buses to get to access these programs. We would like to help provide healthy food options for children on such programs that are affected by the school closures. Please feel free to direct message us at Overland Stockyard and we can assist families in need.

If you are a member of the community that would also like to volunteer to help, we can connect you with a family to sponsor through our program. A simple donation of groceries can make a big difference during this time.

We believe in the power of community, and that nothing is stronger than coming together to help each other during challenging times.

Sincerely,

The Belezuoli Family

& The Entire Overland Stockyard Team
