

Parking Procedures: (safety is of utmost concern, please drive slowly so that everyone is safe). **THERE IS NO PARKING ACROSS THE STREET FROM THE SCHOOL.**

The parking area will have **ONE** entry only. There are two options: park and walk to the student walkway to the school or use the drop off zone.

Park – if you choose to park you must then walk to the crosswalk and walk to the student walkway using it to get to the school. To leave you will use the “early exit”.

Drop off zone – you will drive thru the drop off zone, stopping next to the yellow wheel bump at anytime you feel your child can walk safely to the campus (i.e. upper grade can be dropped off right away and walk the distance, 1st-2nd should be dropped off closer to the ENTRY GATE). Exit OUT BY GRASS AREA.

Pick up- You may park in the “drop off/pick up” zone to wait for your student as long as you -turn off your engine AND stay in/with your car. Your student must come to you, then you will drive out. This will take patience and communication with your student. Classes are dismissed at 2:50 however each class takes a different amount of time to come out to the front of the campus. Be sure your student knows if they will go to the drop off zone or you will come to the front to retrieve them. Safety is of our utmost concern.
